CONCUSSION AND SERIOUS INJURY BLUE CARD POLICY FAQS FOR RIDERS

NZEQUESTRIAN.ORG.NZ

ESNZ CONCUSSION AND RETURN TO RIDING POLICY

- ESNZ's Concussion (and other serious injury) policy came into effect in July 2018.
- If you are riding in an ESNZ competition and sustain a concussion, suspected concussion, or other serious injury, you will have to stop riding immediately and will be issued with an ESNZ Blue Card by an ESNZ Official on duty.
- A Blue Card means that you are stood down from all riding activities until clearance from a registered GP or registered medical specialist can be obtained.
- The rule, in the General Regulations, Article 150, can be found on page 38 on the *ESNZ website under Rules*

WHAT IS A CONCUSSION?

- Concussion is a brain injury that can occur in any sport. Concussion is caused by the impact of force (a blow) to a part of the body not necessarily the head directly.
- You don't have to be knocked out to be concussed.
- Concussion is trauma-induced alteration in brain function.

Early **recognition** and appropriate **treatment** of concussion may improve **outcomes**

WHY DID ESNZ IMPLEMENT THE BLUE CARD PROCEDURE FOR CONCUSSIONS AND SERIOUS INJURIES?

- For the safety and welfare of our athletes
- To allow for the tracking of information about concussion incidences and length of recovery for equestrian athletes post-concussive events in order to continuously monitor and reassess national concussion recommendations for equestrian sport.

HOW DO I KNOW IF I HAVE RECEIVED A BLUE CARD?

If you have received a Blue Card for concussion the issuing Official should notify you of this and give you a copy of the below Return to Riding form. If you are unsure then you should ask. You will also receive an automated notification email from ESNZ.

ESNZ CONCUSSION RETURN TO RIDING FORM

ESNZ General Regulation Article 150

8. If a concussion or serious injury is suspected, by a member of the Ground Jury at the event, the rider should be immediately removed from participating and be issued with a Blue Card concussion note. A Blue Card means that a rider is stood down from all riding activities until clearance from a registered GP or registered medical specialist can be obtained. A copy of their Blue Card will also go straight to ESNZ, which will then go on that rider's profile, visible to Organising Committees and officials.

8.1. All riders who have been withdrawn from competition due to a suspected concussion are required to provide ESNZ with a medical clearance note from a registered GP or registered medical specialist before they are able to compete again. Once this has been received the Blue Card will be withdrawn.

8.2. If a rider who has been issued with a Blue Card competes without first providing medical clearance, this may result in disciplinary action taken through the ESNZ disciplinary process set out in the ESNZ General Regulations.

Athletes/Riders:

- If you have been issued with this Blue Card which prevents you from taking further part in competition over the next 24 hours at least, it is because a qualified ESNZ Official is concerned that you have a suspected concussion or other serious injury. Your safety and wellbeing are paramount.
- Please ensure that over the next 24-48 hours you (and your family or friends) check for signs and symptoms of concussion.
- It is recommended that you seek medical attention within 24 – 48 hours.
- As an ESNZ Blue Carded rider you must now return to competition via the graduated return to riding process.
- Before you can resume (competition) riding you must obtain a medical clearance. It is your responsibility to visit a doctor to secure a clearance.

Doctors/Medical Specialists:

This form is adapted from the Equestrian Sports New Zealand Concussion Policy which can be found on our website - www.nzquestrian.org.nz/safety/concussion/, and is in accordance with AOC (www.acsportsmart.co.nz/concussion/) and Axis Sports Medicine (www.axisportsmedicine.co.nz/). All medical providers are encouraged to review these sites if they have any questions regarding the latest information on the evaluation and care of the athlete following a concussion injury.

Athlete's Name: _____ Date of Birth: _____

Date of injury: _____

This return to riding plan is based on today's evaluation.

| | |
|-----------------------------------|---|
| Care plan completed by: _____ | Date of Evaluation: _____ |
| Return to riding on (date): _____ | Return to this office: Date/Time: _____ |
| | Return to competition on (date): _____ |
| (may confirm at a later time) | |

Return to Riding:

1. Athletes should not return to riding on the same day that their head injury occurred
2. Athletes should never return to riding if they still have ANY symptoms
3. Athletes, be sure that your coach and/or an ESNZ Official or First Aid person are aware of your injury, symptoms, and has the contact information for the treating Doctor.

Medical Office Information (Please Print/Stamp):

Doctor's/Specialist's Name: _____ Office phone: _____

Doctor's/Specialist's Signature: _____

HOW DO I RETURN TO COMPETITION AFTER RECEIVING A BLUE CARD?

- Once issued with a Blue Card, you must be assessed and cleared by a registered GP or registered medical specialist, using the *ESNZ graduated return to riding form* before competing at an ESNZ event.
- Once the ESNZ form, or other medical clearance form, completed by a registered GP or registered medical specialist, has been submitted to ESNZ you will be removed from the Blue Card list and can return to competition.
- The timeframe required for clearance is at the discretion of your registered GP or medical specialist. Recovery time is individual and therefore no time guidelines are associated with ESNZ's Return-to-Riding protocol.
- The Blue Card list can only be seen by ESNZ staff and competition organisers via database login.

WHO IS RESPONSIBLE FOR COLLECTING CONCUSSION DATA?

- ESNZ Officials are responsible for ensuring all Blue Card online reports for concussions and other serious injuries at ESNZ events are completed in full and submitted on ESNZ's database.
- ESNZ will not collect specific medical records of athletes, but will track the incidence of concussions at ESNZ events.
- The purpose of the tracking is to gather data for a concussion-related educational program in order to reduce the risk of Second Impact Syndrome and assist athletes in safely returning to the sport through graduated return to riding guidelines.

HOW CAN I KEEP MYSELF SAFE?

1 KNOW THE SYMPTOMS

- Disorientation
- Poor balance or vision
- Nausea
- Headache
- Sensitivity (to light or noise)
- Confusion

2 SPEAK UP

If you think you or someone else has a concussion, tell an official, steward, first aid personnel, medical officer, or coach immediately

3 TAKE TIME TO RECOVER

Follow your doctor's advice on concussion recovery and when to return to riding safely

WHAT HAPPENS IF I GET A CONCUSSION AND KEEP RIDING?

- You're eight times more likely to have a repeat concussion (within one year)
- Your symptoms are more likely to get worse
- You're more likely to have a longer recovery period
- You are a risk to yourself, your horse and other riders
- You are more likely to get other injuries
- If a concussion is not properly identified and managed, it can lead to permanent damage or even death.

WHO DEVELOPED ESNZ'S BLUE CARD FOR CONCUSSION POLICY?

The ESNZ Technical Committee worked with concussion specialists Axis Sports Medicine to develop a robust Blue Card for Concussion and Serious Injury procedure, and return to riding policy
