

Grade III Para Rider:

ANNE WATTS

BJK CASHMIR

CRAIGHAVEN ALLANON

I have been riding all my life, farm hacking, pony club games / frivolity as kids do, showing, eventing, hunting, show jumping, and dressage. Three years ago almost to the day, I had a fall hunting; I did not get on to my feet for 3 months however determination and will got me there, tough some days BUT I did it! I have Incomplete Tetraplegia due to spinal cord damage from a broken vertebrae, this is central cord syndrome which limits motor and sensory functions. I feel so lucky to be riding dressage, showing and more recently carriage driving with my cute little pony.
