Club survey results

Starting help documents to be created on funding, sponsorship and volunteer engagement. These are to be completed by seasons end and related zoom meetings held.

North Island Ride Frequency

Support at new venues to be followed up with a view to finding rides and riders in new areas. Even potential for new affiliations or floating club being created with current committees already stretched.

ESNZ SGM

Zoom meeting 26th February. Endurance representation reminder

Club Region Overlap

This was queried as to whether it is an issue or not with many clubs providing tracks in overlapping areas. The consensus was that this wasn't currently an issue with more rides desired and clubs already stretched with the rides they did run. Finding new venues is a positive.
