Complete sets of these rules are available from:
Endurance Sport Manager

This issue of the Competitive Trail Riding supersedes all other texts covering the same matter.

Every eventuality cannot be provided for in the rules. In unforeseen or exceptional circumstances, it is the duty of the Ground Jury, the Technical Delegate and the Veterinarians to make a decision, in a sporting spirit and approaching as nearly as possible to the intention of these Discipline Rules and the ESNZ General Regulations.

Code of Conduct for Horse Welfare

- The FEI expects all those involved in international equestrian sport to adhere to the FEI's Code of Conduct and to acknowledge and accept that at all times the welfare of the horse must be paramount and must never be subordinated to competitive or commercial influences.
- At all stages during the preparation and training of competition horses, welfare must take precedence over all other demands. This includes good horse management, training, methods, farriery and tack, and transportation.
- Horses and competitors must be fit, competent and in good health before they are allowed to compete. This encompasses medication use, surgical procedures that threaten welfare or safety, pregnancy in mares and the misuse of aids.
- Events must not prejudice horse welfare. This involves paying careful attention to the competition areas, ground surfaces, weather conditions, stabling, site safety and fitness of the horse for onward travel after the event.
- Every effort must be made to ensure that horses receive proper attention after they have competed and that they are treated humanely when their competition careers are over. This covers proper veterinary care, competition injuries, euthanasia and retirement.
- The FEI urges all involved with the sport to attain the highest levels of education in their areas of expertise.
- ESNZ Endurance expects all its members to abide by this Code of Conduct.

This counts towards the final score. The ride time will continue until the horse has been successfully presented. The rider will then have a hold time, specified

at the pre-ride briefing, in which to rest their horse before presenting themselves and their horse to the timekeeper at the start line in order to commence the next loop. A horse must commence all remaining loops at the designated departure time (i.e. immediately after hold)

The 'hold time' commences when the rider calls 'time' at the vet ring and the horse's pulse meets the ride criteria, and, having been declared fit to continue by the vet, finishes when the horse is due to depart on the next loop.

At the end of the ride the horse may only be presented once. There is no second chance.
