EQUESTRIAN SPORTS NZ ADVICE TO AREA GROUPS/CLUBS DURING COVID-19 ALERT

IMPORTANT TO NOTE

Please note that Equestrian Sports New Zealand (ESNZ) is not an expert on pandemics and as such all [New Zealand Government](#) and [Ministry of Health](#) information, guidelines and directives supersede this information. This document has been put together by Equestrian Sports NZ, with the purpose of informing our equestrian community how we are responding to Covid-19, and to provide recommendations for what we believe is the best course of action for all equestrian area groups/clubs, facilities, officials and members.

This document will change frequently, and we will make sure the most up to date is dated and on the website. We will monitor the government Alert Levels as we move back down to 3, 2 and 1, and if there is more flexibility for activities such as equestrian, we will be sure to update these recommendations in line with government advice.

Significant work is being done before we move to level two to ensure organising committees, area groups and affiliated groups are aware of what they should be planning for. Please keep a watch on this site.

All equestrian area groups/clubs need to consider their own situations at any given time. An area group/club's decision on whether to allow training or competition needs to be based on the situation in your local area at the time. The Government has released [Alert Levels](#) which can differ by region at any one time, so the location of your area group/club could be under specific direction of the Government. There will need to be more definition of regional boundaries and we are seeking clarification on this before a Level Two shift.

FUTURE PLANNING

Once we get closer to Level Two - should your area group/club be willing and able to allow training or competition, it may consider some of the following measures so social distancing is practiced.

- Contact tracing will be imperative so every OC will need a system to log all those at the premises at any time. We are checking out apps and templates for this and will have more information soon.
- Offering staggered training or start times.
- All entries to be done and paid online.
- Consider no changes to entries on the day – any changes must be done online the day before at a certain time. No exceptions to the rule.
- Online booking system for training and use of grounds/facility.
- Spacing out stabling.
- Spacing out parking for horse trucks/floats.
- Posting or emailing out rider packs, back numbers to avoid queue in the secretary office.
- All events will need to be draw order only.

ESNZ is also working with the FEI on how we might manage officials requirements in L2.

The following information may assist with determining what equestrian activity may be possible under each Alert Level, but Equestrian Sports NZ reiterate it is up to individual area groups/clubs to make decisions, based upon their own circumstances and applicable Government directives.
