To: Lee-Ann van Heerden <leeannvh@gmail.com>

Hi Lee-Ann,

We operate our own registry. Attached is her pedigree. We registered her as Fornax2 in our registry. See <https://www.allbreedpedigree.com/fornax2>

You can register her as Delta Fornax2 or another name with ESNZ. You can use this email to say we gave you permission to use our stud prefix Delta.

We havent gone through the rigmarole of registering with the warmblood society. If you wanted to do that we would support it by confirming the breeding.

HPQ Fafnier you will see is by a horse called Frontier. Faffnier is the only son by Frontier as the owner decided to geld him. He competed at Grande Prix level dressage in Australia and Germany successfully before getting injured.

Faffniers offspring jump particularly well too.

The mare is 6 years old. I will get the exact date of birth for you. I think it was late December but will double check.

Regards

Andrew
