

## ESNZ ENDURANCE ADVICE DURING COVID-19 ALERT LEVEL 2

### IMPORTANT TO NOTE

Please note that Equestrian Sports New Zealand (ESNZ) and ESNZ Endurance are not an expert on pandemics and as such all [New Zealand Government](#) and [Ministry of Health](#) information, guidelines and directives supersede this information. This document has been put together by Equestrian Sports NZ, with the purpose of informing our equestrian community how we are responding to Covid-19, and to provide recommendations for what we believe is the best course of action for all equestrian area groups/clubs, facilities, officials and members.

This document will be updated frequently, and we will make sure the most up to date version is on the website. We will monitor the government Alert Levels as we move back up or down through alert levels 2 and 1, and if there is more flexibility for activities such as equestrian, we will be sure to update these recommendations in line with government advice.

### IS YOUR CLUB PLANNING ON HOLDING AN EVENT?

If your Club wishes to hold an event, this includes training or practice days, and believes it can meet all of the Level 2 requirements, such as:

- **Gatherings**
  - Equestrian Sports NZ events are subject to gathering requirements and have a 100-person limit which includes all riders, officials and spectators.
  - Physical distancing of 1metre should be practiced. Where this level of physical distancing is not possible, face masks should be worn.
  - Multiple gatherings can take place at the same event or facility, as long as each gathering can be isolated / separated.
  - Phasing of activities can be implemented to allow time for event participants and supporters to safely pass through communal areas and to manage multiple gatherings if this option is utilised.
- **Contact Tracing** – a system to record and retain the contact details of all people involved in or attending your activity must be in place. This information must remain accessible on request for up to eight weeks after the event
- **Cleaning and Hygiene** – Robust hygiene measures, particularly regular washing and drying of hands by all participants must be undertaken, and hand sanitizer made available at convenient locations throughout the venue. Regular sanitizing of equipment and surfaces must be undertaken. As a guideline this should take place at the beginning of the event and approximately every two hours every for the duration of the event, and again at the end.

### LEVEL 2 TOOLKIT

A level 2 toolkit has been put together to assist Clubs with navigating Level 2 requirements and can be found on the ESNZ website: <https://www.nzequestrian.org.nz/level-2-tool-kit/>

### LEVEL 2 CHECKLIST

If you are unsure if your Area Group/Club or Organising Committee can meet Level 2 requirements, our Level 2 checklist may be of assistance in determining if you are prepared and ready to hold an event. The checklist can be found in the Level 2 Toolkit. This checklist does NOT need to be submitted for approval, it is merely a reference tool to assist shows in preparing and meeting government and ESNZ requirements.

### QR CODES

It must be in either a prominent place or near main entrances. Help our equestrian community keep track of where they've been by displaying an NZ Covid Tracer QR code poster – from 11.59am on Wednesday 19 August this is a government requirement. [Get your QR poster](#). If you need help generating your QR code poster please email [emma@nzequestrian.org.nz](mailto:emma@nzequestrian.org.nz)

### MITIGATING RISKS

In putting together this plan, ESNZ Endurance has attempted to mitigate the following risks and areas of concern:

- Meeting areas including, secretary's office, office, stables, admin, catering, toilets, showers for overnight events
- Handling of documents and money
- Mass starts
- Social distancing whilst competing
- Personal proximity in vetting areas, timekeeping positions
- Logbook handling
- Strapping and support crew – should probably only be people who are already in your bubble
- Gatherings in trucks for overnight events
- The event of an accident/injury – onerous on volunteer medics
- Public/event catering
- Managing effective contact tracing for competitor support people
- Government restrictions in response to local Covid 19 cluster outbreaks
- Untimely return to Alert Levels 3 or 4
- Financial uncertainty for clubs
- Risks associated with non-compliant attendees
- Possibility of an infected person attending and causing a cluster, the subsequent contact tracing and fall out
- Insufficient cleaning regimes at venue
