

NZ Jumpers inspiring and performing to grow recognition and success on the world stage

HP Environment

Riders with the necessary skills and attitude to be competitive on the world stage

- Course design - importance, impact and education in training and competition
- Training - coaching, education (off horse), yard visits
- Training - Emphasis on flatwork for jumping and classical training
- Business development - livelihood, owners, sponsors, business management
- Training facilities - exposed to correct surfaces and international level equipment.
- Competition support - Leadership, Coaching & Equine Health Support at Key Competitions.
- Mentoring - Riders having access to the right people for the required purpose
- Horse health Support - vet, farrier, physio
- Wellbeing
- Performance Psych
- Strength and conditioning
- International campaigns - Utilising Australia for competition

Culture

An open and collaborative culture and learning environment that everyone can learn from and contribute to

- Riders supporting and sharing knowledge.
- Collaboration between coaches and support staff - those both in and out of the programme
- High level of competitiveness and resilience
- Integrity and a disciplined approach
- Living the values and principles of the programme

Sustainability

Sustainable, operationally excellent, well funded Jumping program

- Strong program leader, coaches and support staff
- Multiple funding avenues to ensure program sustainability
- Prudent financial management
- Pathway for developing coaches and leaders

Horsemanship

Optimal management of horses for peak performance

- Education round horse management
- Riders selecting the right competition horses
- Producing young horses
- Horse welfare - treating the horses respectfully
- Increasing the HorsePower in our HP squads

Connections

Aligned, connected system to support NZ riders' desired pathway

- IPP Support to off shore riders
- Off shore yard placement
- Connecting riders, breeders and owners
- Allowing for fluid individual campaigns to championships

Innovation and competitive environment

An analytical and inquisitive approach to innovation to achieve competitive advantage

- Use innovative technology and NZ experts to develop training and tracking advantages
- Ensure competitive advantage is a key focus and is top of mind
