

Instructions for Setting Up Farm Tech Timers

Setting up the lights in the arena

- Transmitter 1 is ALWAYS the START
- Transmitter 2 is ALWAYS the FINISH
- Once the four units are mounted on the tripods check the red light is steady
- If it is blinking the battery in that unit is getting low.
- Only use the Gold Energiser Batteries (they last the longest)
- When setting out the tripods ensure the aerials have a reasonably clear line of sight back to the console.
- When the eyes are aligned to each other the display on the bottom screen of the console will show 1 2 X which will flash alternately with OFF (this shows the Eyes are OFF) when you press
- EYES ON the Console display will change to a steady 1 2 X

Basic Use

- Ring the Bell
- Press Countdown, then press Eyes On
- When the rider is approaching the last fence press Eyes ON If the timer needs to be stopped during the round press the STOP / START button. To restart the timer press the RESTART button (#3)

To enter Times Allowed

- Press Setup
- Press Next Choice until First Round Time appears in the bottom display screen
- Press Enter, key in the time and press Enter again
- The next display should be Press Enter for Jump off Time
- Press Enter, key in the time and press Enter again
- Press Setup to get out of the Menu
- Check that First Round is showing on the lower display screen
- Press Setup and Next Choice or Previous Choice to go back and forth between First Round and Jump Off Round. Press Enter to accept.
