

Notice of Helicopter use for maintenance work on transmission lines in your area.

Transpower, the owner and operator of the National Grid, is undertaking maintenance (joint inspections) on sections of its Islington to Kikiwa 220 kV transmission line (**between Islington and Kikiwa**).

The helicopter will be operating at around 50m above the conductor, with a line worker suspended underneath and will hover stationary for approximately 3mins while testing each joint, as highlighted on the accompanying map.

The work is planned to occur between Monday 30 October and Friday 24 November 2023.

The work is weather dependent and may change at the last minute. In the event of bad weather or strong winds the work will be rescheduled to the next fine weather day.

It's important to us that you are kept informed and updated on our activities.
If you require further information, please call Brendon Townsend on 027 675 5840.
